

Long-Residual Pesticide (LRP) Reduction Program

Framework: EPA Pesticide Stewardship | Date: 2024-04-01

Environmental Impact Log

Program replacing long-residual organophosphates and pyrethroids with microencapsulated and biological alternatives at sensitive sites.

Key commitments:

- 1. Banned LRP list in food zones.
- 2. Approved alternatives per pest category.
- 3. Technician training on alternatives.

This document supports corporate sustainability audits. Official regulatory requirements may vary by jurisdiction.
