

Customer Preparation Guide for Bed Bug Treatment

Dear Valued Customer,

At Green House Pest Control, our goal is to eliminate bed bugs completely. Your cooperation is essential to ensure the success of the treatment.

1. Before the Treatment

- Wash all clothing and bedding in hot water (60°C or higher) and dry on high heat for at least 30 minutes.
- Reduce clutter and empty nearby furniture.
- Vacuum thoroughly and dispose of the vacuum contents in a sealed bag outside.

2. During the Treatment

- Vacate the premises with all occupants and pets for 4–6 hours or as instructed.
- Do not touch treated surfaces until completely dry.

3. After the Treatment

- Use bed bug-proof mattress and pillow encasements.
- Seal cracks and openings.
- Dead or slow-moving bed bugs may appear during the first few days.
- Monitor for signs and contact us if live bed bugs remain after two weeks.

Message from Green House

- According to the CDC, bed bugs are not known to transmit infectious diseases.
- Green House Pest Control is committed to solving your infestation completely.
- We Care for Your Health and Protect Your Environment.
